

Your Grandfather, Gordon Verna Divelbiss appears to have been born to Ida Jane Divelbiss, daughter of George and Lovina Rhodes Divelbiss. He is buried with his mother.

His Illinois Death record states his parents were John Divelbiss and Ida Rhodes, however his military transport document states his mother is Ida J. Parker (maiden name divelbiss). He is living with his Grandparents in 1900 and his Grandmother in 1910. On the 1900 and 1910 Census, Lovina states she had 4 children with 3 living. I cannot find that they had a son named John.

Take a look at your Dad's pedigree chart. That has the direct line. I also have the descendants lists which are a little more confusing to read until you become familiar with the names and the format.
